

Form Validation System

Assigned by: Ms. Poornima Due 1/31/2026

Scenario:

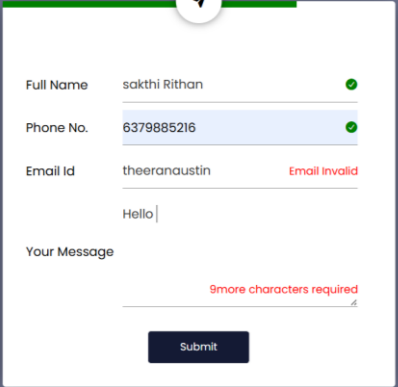

A registration form needs validation.

Tasks:

Validate name, email, password

Show error messages without page reload

Prevent form submission on error

The image shows a registration form with the following fields and feedback:

- Full Name:** sakthi Rithan (Valid, green checkmark)
- Phone No.:** 6379885216 (Valid, green checkmark)
- Email Id:** theeranaustin (Invalid, red text: "Email Invalid")
- Password:** Hello (Invalid, red text: "9more characters required")

A "Submit" button is located at the bottom of the form.
